

PCNS 100th Anniversary Medal

The Pacific Coast Numismatic Society has announced design and ordering information for their 100th Anniversary Medal. This medal will be engraved and struck by Daniel Carr of the Moonlight Mint in Colorado, and distributed this Fall to subscribers who pre-order by June. The design for this historic medal revisits the PPIE commemorative designs and continues the Society's traditional octagonal logo with a new high-relief die. (Images shown for design info are not actual photos.) Mintage will be limited to prepaid orders received by the Society by June 2015. The octagonal 41mm medal will be struck in silver, with coppers available only as part of the 2-medal set (1 copper + 1 one-ounce silver).

Orders with payment, \$100 per set or \$75 silver only, plus \$6 postage, must reach the Society by June at: PCNS, Box 475656, San Francisco, CA 94147.

PCNS was founded in 1915, by Farran Zerbe and a group of San Francisco collectors, during the Panama Pacific International Exposition. It was the first numismatic organization established in the western United States. PCNS hosted the American Numismatic Association's 1915 Convention in San Francisco, in conjunction with PPIE events.

1187th meeting, March 25, 2015

Bill Hyder delivered his talk, **1898 Semi-Centennial of California Gold Discovery**.

Bill discussed the exonumia, badges and so-called dollars, issued to commemorate the parade and Mining Fair held in San Francisco to celebrate the 50th anniversary of the discovery of gold in California.

Schwaab Stamp and Seal in Wisconsin produced most of the souvenir badges. Irvine & Co. made the official souvenir badge that was designed by Walter Brunt & Co. The parade ran down Market Street on January 24, 1898 led by mounted San Francisco police and the Army U.S. Signal Corps. The Society of California Pioneers came next followed by nearly five miles of floats and participants. Bill's collection includes 13 different badges with several variants and a pick and shovel pin produced for the Miner's Day at the Jubilee Mining Fair.

Why do we know so little about the 1898 celebrations? The Maine blew up in Havana Harbor the same week the fair opened. The semi-centennial celebration was quickly forgotten as the Nation's attention turned to war.
