Jerry Schimmel presented his talk:

Architecture and Exonumia of San Francisco's Barbary Coast and Red Light Districts 1890-1920.

Jerry shared his extensive knowledge of San Francisco's early bars, dance halls, and brothels. His presentation took the audience on a tour of San Francisco's streets and neighborhoods in and around the Barbary Coast. He shared historic photos contrasted with the surviving buildings today. Knowing where to look, one can still see the "cribs" and ornate architecture of former brothels. Traces of dance floors and fancy crown molding can still be seen in some historic buildings. Historic tokens from each of these locations recall the activities of the day. Some were slot machine tokens, others counters that allowed dance hall girls to account for their efforts in encouraging men to drink for the evening, some advertised upscale houses, and others are difficult to interpret their actual purpose.

Many of these stories can be read in past issues of TAMS Journal and Jerry provided copies of many of them for the audience. Many of these received awards as the best article for the year it was published.

The evening raffle winners included:

Donna D., Catz Forsman, and Ed Treuting. Your secretary was engaged in conversations with some of the visitors and neglected to record all the details of the prizes.

The remainder of the meeting was devoted to member exhibits.
